Net loss for the financial year	(3,435)	(11,885)

Dividend

No dividend was paid, declared or proposed since the end of the Company's previous financial year.

The Directors do not recommend the payment of any dividend for the financial year ended 31 March 2006.

Reserves and provisions

All material transfers to or from reserves and provisions during the financial year are shown in the financial statements.

Directors

The Directors who have held office during the period since the date of the last report are:

Tan Sri Dato' Tan Hua Choon Mr. Lim Jian Hoo Mr. Thor Poh Seng Mr. Lee Yu-Jin Encik Aminuddin Yusof Lana Encik Mohtar bin Abdullah

(Company no: 8235 K) (Incorporated in Malaysia)

Directors' report for the financial year ended 31 March 2006 (continued)

Directors' interests

According to the Register of Directors' Shareholdings, the interests of Directors in office at the end of the financial year in shares in the Company and its related corporations are as follows:

	Number of ordinary shares of RM0.50 each					
	1 April 2005 Addition Disposal 31 March 2					
Malaysia Aica Berhad						
Tan Sri Dato' Tan Hua Choon Direct	22,641,985	0	0	22,641,985		

None of the Directors in office at the end of the financial year held any other interests in shares in or debentures of the Company and its related corporations during the financial year.

Directors' benefits

Since the end of the previous financial year, no Director has received or become entitled to receive a benefit (other than the fees and other emoluments shown in note 9 to the financial statements) by reason of a contract made by the Company or a related corporation with the Director or with a firm of which he is a member, or with a company in which he has a substantial financial interest.

During and at the end of the financial year, no arrangement subsisted to which the Company is a party, being arrangements with the object or objects of enabling Directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate.

Statutory information on the financial statements

Before the income statements and balance sheets of the Group and of the Company were made out, the Directors took reasonable steps:

- (a) to ascertain that action had been taken in relation to the writing off of bad debts and the making of allowance for doubtful debts and had satisfied themselves that all known bad debts had been written off and that adequate allowance had been made for doubtful debts; and
- (b) to ensure that any current assets, other than debts, which were unlikely to realise in the ordinary course of business their values as shown in the accounting records of the Group and of the Company, had been written down to an amount which they might be expected so to realise.

(Company no: 8235 K) (Incorporated in Malaysia)

Directors' report for the financial year ended 31 March 2006 (continued)

Statutory information on the financial statements (continued)

At the date of this report, the Directors are not aware of any circumstances:

- (a) which would render the amounts written off for bad debts or the amounts of the allowance for doubtful debts in the financial statements of the Group and of the Company inadequate to any substantial extent; or
- (b) which would render the values attributed to current assets in the financial statements of the Group and of the Company misleading; or
- (c) which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate.

No contingent or other liability has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may substantially affect the ability of the Company and its subsidiary companies to meet their obligations when they fall due.

At the date of this report, there does not exist:

- (a) any charge on the assets of the Group and of the Company which has arisen since the end of the financial year which secures the liability of any other person; or
- (b) any contingent liability of the Group and of the Company which has arisen since the end of the financial year.

Other statutory information

At the date of this report, the Directors are not aware of any circumstances not otherwise dealt with in this report or the financial statements which would render any amount stated in the financial statements misleading.

In the opinion of the Directors,

- (a) the results of the operations of the Group and of the Company during the financial year were not substantially affected by any item, transaction or event of a material and unusual nature except for the allowance for impairment in the investment in a subsidiary company of RM11,880,000 for the Company; and
- (b) there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely to affect substantially the results of the operations of the Group and of the Company for the financial year in which this report is made.

Report of the auditors to the members of Malaysia Aica Berhad

(Company no: 8235 K) (Incorporated in Malaysia)

We have audited the financial statements set out on pages 7 to 43. These financial statements are the responsibility of the Company's Directors. It is our responsibility to form an independent opinion, based on our audit, on these financial statements and to report our opinion to you, as a body, in accordance with Section 174 of the Companies Act, 1965 and for no other purpose. We do not assume responsibility to any other person for the content of this report.

We conducted our audit in accordance with approved auditing standards in Malaysia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by directors, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion:

- (a) the financial statements have been prepared in accordance with the provisions of the Companies Act, 1965 and the MASB approved accounting standards in Malaysia so as to give a true and fair view of:
 - (i) the matters required by Section 169 of the Companies Act, 1965 to be dealt with in the financial statements; and
 - the state of affairs of the Group and of the Company as at 31 March 2006 and of the results and cash flows of the Group and of the Company for the financial year ended on that date;

and

(b) the accounting and other records and the registers required by the Act to be kept by the Company and by the subsidiary companies of which we have acted as auditors have been properly kept in accordance with the provisions of the Act.

The names of the subsidiary companies of which we have not acted as auditors are indicated in note 18 to the financial statements. We have considered the financial statements of these subsidiary companies and the auditors' reports thereon.

PRICEWATERHOUSE COOPERS 10

Report of the auditors to the members of Malaysia Aica Berhad (continued)

(Company no: 8235 K) (Incorporated in Malaysia)

We are satisfied that the financial statements of the subsidiary companies that have been consolidated with the Company's financial statements are in form and content appropriate and proper for the purposes of the preparation of the consolidated financial statements and we have received satisfactory information and explanations required by us for those purposes.

The auditors' reports on the financial statements of the subsidiary companies were not subject to any qualification and did not include any comment made under subsection (3) of section 174 of the Act.

Notes to the financial statements for the financial year ended 31 March 2006

1 General information

The principal activities of the Company during the financial year are the provision of management services and investment holding. The principal activities of its subsidiary companies are set out in note 18 to the financial statements.

The number of employees in the Group and in the Company at the end of the financial year is 457 (2005: 425) and 7 (2005: 9) respectively.

The Company is a limited liability company, incorporated and domiciled in Malaysia, and listed on the Main Board of Bursa Malaysia Securities Berhad.

The Company's registered office is located at:

8-3 Jalan Segambut 51200 Kuala Lumpur

The Company's principal place of business is located at:

5100-A Lorong Mak Mandin 5 Mak Mandin Industrial Estate 13400 Butterworth

2 Financial risk management objectives and policies

The activities of the Group expose it to certain financial risks, including interest rate risk, credit risk, market risk, foreign currency exchange risk, liquidity and cash flow risk. The overall financial risk management objective of the Group is to create value for its shareholders by minimising the potential adverse impact of these risks on its financial position, performance and cash flows. Financial risk management is carried out through risk review, internal control systems and adequate insurance programmes.

(i) Interest rate risk

The Group's exposure to interest rate risk is minimal.

(ii) Credit risk

The Group's exposure to credit risk arises mainly from cash deposits with financial institutions and receivables, which consist mainly of bills receivables. For sales made on deferred credit terms, adequate assessment of counter party's financial standing is carried out before sales are made. The Group manages its exposure to credit risk by seeking to invest cash assets safely and profitably. The Group considers the risk of material loss on cash deposits with financial institutions to be unlikely.

(iii) Market risk

The Group's exposure to market risk is minimal as the selling prices of its products are fixed above the costs of its key raw materials.

(Company no: 8235 K) (Incorporated in Malaysia)

Notes to the financial statements for the financial year ended 31 March 2006 (continued)

2 Financial risk management objectives and policies (continued)

(iv) Foreign currency exchange risk

The Group's exposure to foreign currency exchange risk is mainly in respect of the foreign currency transactions entered into by the Company and its subsidiary company in US Dollar. The Groups' exposure to foreign currency exchange risk is partly reduced by the natural hedge of import and export. The Group also monitors the movements of the exchange rate and acts accordingly to further minimise its foreign currency exchange risk.

(v) Liquidity and cash flow risk

The Group practises prudent liquidity risk management to minimise the mismatch of financial assets and liabilities through an adequate amount of committed banking facilities and aims to maintain sufficient liquidity and cash flow at all times.

3 Basis of preparation of the financial statements

The financial statements of the Group and of the Company have been prepared under the historical cost convention (as modified by the revaluation of certain property, plant and equipment) unless otherwise indicated in this summary of significant accounting policies.

The financial statements comply with the provisions of the Companies Act, 1965 and the MASB approved accounting standards in Malaysia.

With effect from 1 April 2005, the financial statements of the Group and the Company adopt the new name of the approved accounting standards in Malaysia, that is, Financial Reporting Standards ("FRS"), in place of the MASB Standards.

4 Summary of significant accounting policies

All significant accounting policies set out below are consistent with those applied in the previous financial year unless stated otherwise.

(a) Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiary companies made up to the end of the financial year. Subsidiary companies are those companies in which the Group has power to exercise control over the financial and operating policies so as to obtain benefits from their activities.

Subsidiary companies are consolidated from the date on which control is transferred to the Group and is no longer consolidated from the date that control ceases. Intra-group transactions, balances and unrealised profits or losses are eliminated fully on consolidation and the consolidated financial statements reflect external transactions only.

Minority interest is measured at the minorities' share of the post acquisition fair values of the identifiable assets and liabilities of the acquiree. Separate disclosure is made of minority interest.

(Company no: 8235 K) (Incorporated in Malaysia)

Notes to the financial statements for the financial year ended 31 March 2006 (continued)

4 Summary of significant accounting policies (continued)

(b) Property, plant and equipment

Property, plant and equipment except for certain land, buildings, plant and machinery are stated at historical cost less accumulated depreciation and impairment losses.

Certain land, buildings, plant and machinery are stated at revalued amounts, based on valuations carried out by independent professional valuers, Government valuers and Directors, less accumulated depreciation.

Freehold land is not depreciated.

Long term and short term leasehold land are amortised in equal instalments over the periods of the respective leases ranging from 60 to 87 years, expiring in years 2041 to 2082.

Depreciation of other property, plant and equipment, except for spare parts and loose tools, is calculated on the straight line basis so as to write off the cost or valuation of the property, plant and equipment over their estimated useful lives at the following annual rates:

	%
Buildings	2
Renovation	20
Plant and machinery	5 - 10
Furniture, fittings and equipment	10 - 20
Motor vehicles	20

Initial purchases of spare parts and loose tools have been capitalised and depreciated at annual rates ranging from 20% to 100%. Subsequent purchases of such items have been charged out directly to the income statement.

The land, buildings, plant and machinery have not been revalued since the dates of the revaluation exercises as stated in note 17. The Directors have adopted the transitional provision of International Accounting Standard FRS 116: Property, Plant and Equipment as adopted by Malaysian Accounting Standards Board ("MASB") in respect of assets carried at previously revalued amounts to retain the carrying amounts of these land, buildings, plant and machinery on the basis of their previous revaluation subject to the continuing application of the current depreciation policy.

Surpluses arising on revaluation are credited to the revaluation reserve. Any deficit arising from revaluation is charged against the revaluation reserve to the extent of a previous surplus held in the revaluation reserve for the same asset. In all other cases, a decrease in carrying amount of the assets arising from revaluation is charged to the income statement.

Gains and losses on disposals are determined by comparing proceeds with carrying amount and are included in the income statement. On disposal of revalued assets, amounts in revaluation reserve relating to those assets are transferred to retained earnings.

(Company no: 8235 K) (Incorporated in Malaysia)

Notes to the financial statements for the financial year ended 31 March 2006 (continued)

4 Summary of significant accounting policies (continued)

(b) Property, plant and equipment (continued)

At each balance sheet date, the Group assesses whether there is any event or change in circumstances, which indicate that the carrying amount of the asset may not be recoverable. Whenever the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognised in the income statement immediately. The recoverable amount is the higher of an asset's net selling price and value in use. The net selling price is the amount obtainable from the sale of an asset at arm's length transaction. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. For an asset that does not generate largely independent cash flows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

Impairment loss is reversed when there has been a change in the estimates used to determine the asset's recoverable amount, which causes an increase in the recoverable amount. Reversal of impairment loss is recognised to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation and amortisation, had no impairment loss been recognised. Reversal of impairment loss is recognised in the income statement.

(c) Subsidiary companies

Investments in subsidiary companies are stated at cost. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount.

(d) Associated companies

The Group treats as associated companies, those companies in which a long term equity interest of between 20% and 50% is held or where it is in a position to exercise significant influence over the financial and operating policies.

The Group's share of profits less losses of associated companies is included in the consolidated income statement and the Group's share of post-acquisition retained profits and accumulated losses are added to or deducted from the cost of investments in the consolidated balance sheet respectively.

In the Company's financial statements, investments in associated companies are stated at cost. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount.

(e) Investments

Quoted investments are stated at the lower of cost and market value. Other investments are stated at cost less allowance for diminution in value. Cost is determined principally on an average basis, computed on the occasion of each acquisition. Allowance for diminution in value is made only if, in the opinion of the Directors, there has been a permanent fall in the value of the investment. Profits or losses realised on sale of investments are taken to the income statement.

(Company no: 8235 K) (Incorporated in Malaysia)

Notes to the financial statements for the financial year ended 31 March 2006 (continued)

4 Summary of significant accounting policies (continued)

(f) Inventories

Inventories are stated at the lower of cost and net realisable value after adequate allowance has been made for all deteriorated, damaged, obsolete or slow-moving inventories. In general, cost is determined on the first in first out basis. Cost of raw materials and consumables comprise all costs of purchases and other incidental costs in bringing the inventories to their present location and condition. In the case of work in progress and finished goods, cost consists of cost of raw materials, direct labour and an appropriate proportion of factory overheads.

(g) Receivables

Receivables are carried at invoiced amounts less an allowance made for doubtful debts based on a review of all outstanding amounts at year end. Bad debts are written off when identified.

(h) Employee benefits

(i) Short term employee benefits

Wages, salaries, paid annual leave, bonuses and non-monetary benefits are accrued in the period in which the associated services are rendered by the employees of the Group.

(ii) Defined contribution plan

The Group's contributions to the Employees Provident Fund, the national defined contribution plan are charged to the income statement in the period to which they relate. Once the contributions have been paid, the Group has no further payment obligations.

(iii) Defined benefit plan

The Group operates an unfunded final salary defined benefit plan for its employees. The liability in respect of the defined benefit plan is the present value of the defined benefit obligations at the balance sheet date adjusted for actuarial gains/losses and past service cost. The defined benefit obligations are assessed using the projected unit credit method. Under this method, the cost of providing defined benefit obligations are charged to the income statement so as to spread the regular cost over the service lives of the employees in accordance with the advice of qualified actuaries who carry out a full valuation of the plan every three years. The Group determines the present value of defined benefit obligations with sufficient regularity such that the amounts recognised in the financial statements do not differ materially from the amounts that would be determined at the balance sheet date. The last actuarial valuation was carried out as at 31 March 2005.

Actuarial gains and losses are amortised over the period of three years on the straight line basis.

4 Summary of significant accounting policies (continued)

(i) Income taxes

Current tax expense is determined according to the tax laws of each jurisdiction in which the Group operates and includes all taxes based upon the taxable profits, including withholding taxes payable by a foreign subsidiary company or associated company on distributions of retained profits to companies in the Group, and real property gains taxes payable on disposal of properties.

Deferred taxation is provided in full, using the liability method, on temporary differences arising between the amounts attributed to assets and liabilities for tax purposes and their carrying amounts in the financial statements unless the temporary differences arise from initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit.

Deferred tax is recognised on temporary differences arising from investment in subsidiary companies and associated companies except where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantially enacted by the balance sheet date. Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences or unused tax losses can be utilised.

(j) Cash and cash equivalents

Cash and cash equivalents comprise cash and bank balances, demand deposits, bank overdrafts and short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(k) Revenue recognition

Revenue from sales of goods is recognised upon delivery of products.

Income earned in respect of financing of leases and hire-purchase is recognised using the sum-ofdigits method while interest income earned on factoring is recognised on the straight line method.

Dividend income is recognised when the shareholder's right to receive payment is established.

Rental income is recognised on an accrual basis.

Interest income is recognised on the accrual basis determined by the principal outstanding and rate applicable.

Notes to the financial statements for the financial year ended 31 March 2006 (continued)

4 Summary of significant accounting policies (continued)

(I) Foreign currency translations

Foreign currency transactions are converted into Ringgit Malaysia at rates of exchange prevailing at the transaction dates.

Monetary assets and liabilities denominated in foreign currencies are translated into Ringgit Malaysia at the exchange rates prevailing at the balance sheet date. All exchange differences are included in the income statement in the period in which they arise.

The principal closing rates used in translation of foreign currency amounts are as follows:

Foreign currency	31.3.2006 RM	31.3.2005 RM
1 United States Dollar	3.645	3.7965

(m) Financial instruments

(i) Financial instruments recognised on the balance sheet

The particular recognition method adopted for financial instruments recognised on the balance sheet is disclosed in the individual policy statements associated with each item.

(ii) Fair value estimation for disclosure purposes

The face values, less any estimated credit adjustments, for financial assets and liabilities with a maturity of less than one year are assumed to approximate their fair values.

The carrying amounts of floating interest rate financial liabilities with maturity of more than one year are assumed to approximate their fair values.

16 Deferred taxation

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when the deferred taxes relate to the same tax authority.

Deferred tax assets are not recognised for deductible temporary differences in respect of which the Directors are of the opinion that it is not probable that the Company and its subsidiary company will be able to generate sufficient future taxable profits against which the deductible temporary differences can be utilised.

The movements during the financial year relating to deferred taxation are as follows:

	Group	
	2006 RM'000	2005 RM'000
As at 1 April/31 March	25	25

The above deferred tax liability is in respect of the taxable temporary differences between the carrying amount and tax base of the revalued freehold land of RM512,784 at the minimum real properties gains tax rate of 5%.

The net temporary differences for which no deferred tax assets are recognised in the financial statements are as follows:
